Kitchen Sink

inspired by evolution

The Kohler Electric Sink in Spring Green, One of Six Kohler Colors © 1928, Kohler Co.

The kitchen's new *efficiency center*

is a Kohler Electric Sink designed to be modern kitchen's new efficiency center, with every facility right at hand for re-saving, labor-saving, and step-saving. Imagine it in your own kitchen! The ceramic dishwasher, ready to wash your best spotlessly, hygienically clean. The sprayer or laundry tub, at the left, drainboard cover affording extra work-space. The deep "regular" sink in the rear, holding water without a drip and catching debris in the removable cup of

its Dusterainer. The swinging faucet and the rinsing hose, each delivering hot, cold, or tempered water. Beneath, on swinging arm, the refuse container and the "fool box" for brushes, scouring powder, and the like. All at your finger tips . . .

It is a wonderful sink. And wonderfully beautiful, too, in its dress of green enamel—bringing to the kitchen the same color beauty that bath tubs, lavatories, and toilets in lovely Kohler Color Ware now bring to the bathroom.

Ask your plumber about the several Kohler Electric Sink models and other Kohler fixtures. And mail us this coupon.
